## SIXTEEN YEARS IS PUNISHMENT FOR SCHOOL TEACHER

Teacher, Who Is Charged With Being Indirectly Responsible for Girl-Pupil's Death, Is Given Penitentiary Term.

Thomas Sebree, Jr., 21 years old, schoolteacher at Bracht Station, Ky., was convicted by a jury Friday following a trial in Kenton Circuit Court on a statutory charge in connection with the death of Zelma Clemons, 14 years old, Sebree's pupil-sweetheart, also of Bracht Station, which was said to have been the result of an illegal operation performed by a Covington physician. The jury fixed his punishment at 56 years in the penitentiary.

Sebree was accused of having accompanied the girl to Covington on April 8 when the alleged operation was performed. Later she became ill, and on May 24 last she died of complications resulting from the operation.

John B. O'Neal, attorney for Sebree, did not place the defendant on the stand. Following the conclusion of the Commonwealth's testimony, Attorney O'Neal filed a motion requesting the court to give peremptory instructions to the jury to find a verdict for the defendant because, he said, there had been no evidence adduced which showed that the offense for which Sebree was indicted had been committed in Kenton county. Judge F. M. Tracy overruled the motion.

Commonwealth Attorney Orie S. Ware, who conducted the prosecution scored Sebree for his attentions to the young girl pupil under his charge. He accused the schoolteacher of having violated the confidence of the Clemons family and of the School Trustees who had placed him in charge of the district school at Bracht Station and the pupils attending it.

Seated beside Attorney Ware and his associate counsel, County Attorney Edward J. Tracy and Attorney John H. Vest, of Crittenden, Ky., when the verdict was returned, were Mr. and Mrs. Clemons and a number of relatives. On the other side were Sebree, his father, Thomas S. Sebree, wealthy farmer at Bracht Station; a number of relatives and Attorney O'Neal.

When his punishment was announced by the foreman of the jury Sebree remained quiet and made no demonstration of his feelings. Attorney O'Neal expressed surprise at the verdict. He announced he would seek a new trial, and in the event it is denied will appeal.

### TWO PLANTS SEIZED AS NEW CLEWS APPEAR IN CASE

State Dry Officials Confiscate Liquor In Two Lawrenceburg Plants

—Note Showing Receipt Is Found.

Louisville, Ky., July 8.—Simultaneously with the seizure Friday at Lawrenceburg by government representatives of the Bond Brothers distillery and the Paxton Company warehouse, Chief of Detectives Deforester, of Louisville, announced a new clue in the murder of John Thomas, 32, of Louisville—the finding Thursday of a receipt for \$18,000 near the scene of the murder.

Another angle to the investigation was the probe being conducted at Covington by M. B. Bane, chief field deputy in the office of Collector of Internal Revenue Robert H. Lucas into the theft of 189 barrels of whisky from the Paxton warehouse within the last two weeks.

The receipt was found by Anderson county officers investigating the slaying of Thomas and the removal of whisky from the warehouse. The nature of the receipt was not disclosed. It was held by Anderson county officials along with a letter addressed to W. C. Hamm, of Louisville, found in the victim's pocket when his body was discovered Saturday near the distillery.

Importance was attached to the receipt. Efforts were being continued to locate the superintendent, known as "Mr. McCay, from Cincinnati," who disappeared following the finding of Thomas' body.

Captain Deforester interviewed George Patton, of Louisville, brother-in-law of Thomas, and Martin Thomas, brother of the victim. According to Captain Deforester, Mr. Patton said that he and his wife had been camping on the Kentucky River a mile and a half from the distillery and that John Thomas was there last week, but he was unable to give names of other persons who had been to the camp.

Martin Thomas denied having visited the camp. Captain Deforester reported.

Confiscation of the distillery and warehouse, both on the same premises and approximately 900 barrels of whisky, resulted from investigation ordered by Roy Haynes, Federal Prohibition Commissioner at Washington, who in telegraphic instructions Thursday to Collector Lucas and P. Green Miller, district prohibition agent, directed that the properties be seized if the inquiry warranted such action.

Mr. Haynes was notified late Thursday afternoon that the confiscation would be carried out Friday morning.

At bootlegger's prices of \$40 a gallon the whisky seized Friday would be worth approximately \$1,600,000.

Seizure of the plants at Lawrenceburg was the sixth confiscation of distillery property in Kentucky by the government within a month. The Rugby distillery was the only local plant, the others being located in rural districts.

July 15, is the last day for discount of July 1st telephone bills. 63July9t

### WOMEN FIGHT WOMEN IN THE RAIL STRIKE NOW ON

Disorders Continue in Chicago as a Result of Shopmen's Strike at Railroad Yards in Windy City.

Chicago, July 8.—Women battled against women in the railroad shopmen's strike war today.

Railroad employment agencies sought to hire strikebreakers and their wives to combat picketing by wives of strikers.

Women strikebreakers were given work which women handled during the war.

Strike sympathizers here, including women, stormed the home of Michael Lieupovich and wife who were alleged to have worked in the Pullman repair shops.

Windows were broken and the couple was threatened with further violence unless they quit work.

Sporadic rioting continued throughout the night in Chicago shop districts. Police received frequent calls to quell clashes.

Although seven companies of National Guard troops were held under arms in Illinois, the state did not move them into the districts where clashes were reported.

A crowd of 100 strike sympathizers gathered along the car line leading to the Baltimore & Ohio shops today.

As cars carrying strikebreakers leaving on the midnight shift attempted to pass trolleys were pulled off and "spotters" pointed out the men who were working.

The crowd stormed the darkened cars and dragged the strikebreakers to the street beating them. Seven men were taken to railroad hospitals.

STILL GOING UP.

Washington, July 8.—Further increases in the cost of food are in prospect. Senator David J. Walsh, Massachusetts Democrat, forecast today on the heels of the Labor Department announcement that 18 out of 22 cities registered increases during the past month.

Officials at the Department of Commerce likewise predicted increases. Walsh charged high food schedules in the tariff bill would operate to push commerce officials held that agricultural prices, now on the rebound after a severe slump, are responsible.

BACK TAXES CASES ARE SETTLED.

Twenty-nine back tax cases brought by State Revenue Agent against Mason county citizens in County Court have been settled.

According to reports reaching Sheriff Swanson's office, fifteen automobile loads of union miners from Pomeroy and vicinity visited Cheshire this morning and, flourishing revolvers, threatened the approximately one hundred non-union miners with violence if they continued work.

LOW WOOL PRODUCTION  
EMPHASIZES NEED FOR  
CULLING SHEEP FLOCK.

Lexington, Ky. — Five pounds of low grade wool represents the annual production of the average sheep in Kentucky, according to L. J. Horlacher, in charge of the sheep work at the College of Agriculture. In addition to this, many animals can be found in practically every flock in the state that furnish strong evidence for the need of culling the flock at this time of the year, he said.

"An average annual production of

five pounds of wool for each sheep in the state means that many animals are producing as low as two pounds. Every flock has its light shearing sheep while animals that are of poor mutton type, uncertain breeders or unsound in some respect occur frequently even in the best flocks. Frequently, eaked udders result from lack of attention at weaning time with the result that the ewe is of no further value as a breeder.

"Additional importance is attached to culling the flock in that ewes begin to lose their teeth at around seven or eight years of age. Such animals require more care and attention if they are to be profitable and usually should be eliminated.

The most desirable breeding ewes are well grown and rugged with straight body lines and plenty of capacity for feed. They are feminine in appearance, sound in their mouths and udders and are covered with dense heavy fleeces of fine quality. The most desirable ewes are from one to four years old. Care should be taken to cull out all misfits so that the flock will be as nearly uniform as possible in size and breeding qualities. Such a flock will produce a more even bunch of lambs and eventually increases the profits which its owner realizes."

Larue county farmers are showing a lively interest in the possibilities of improving their soils by means of limestone. County Agent J. W. Jones says interested persons in the Tonieville section have made arrangements to have a total of 700 tons of limestone

Here's convincing testimony from a Maysville citizen.

Mrs. W. A. Schatzmann, 605 East Second street, Maysville gave the following statement November 15, 1918:

"From the benefit I have derived from the use of Doan's Kidney Pills I have every reason to recommend them. Whenever my kidneys have been in a weak or lame condition I have suffered from a weakness or lameness through the small of my back. I have used a bottle or so of Doan's and they have always cured the attack quickly."

On November 22, 1920, Mrs. Schatzmann said: "Doan's Kidney Pills certainly do all that is claimed for them. I gladly recommend them again. Doan's gave me a lasting cure."

man as unheard of and the fulfilling of it beyond any man's power.

5. "The Dream Recalled." It carried out this decree would have included Daniel and his three friends also. They hearing of the decree prayed unto their God for the dream. In the night Daniel received the vision of the Lord with the interpretation thereof.

He thanked his God and told the guards to spare the lives of the men and that he would fulfil the king's demand.

The king listened under a spell to the words of the mighty man Daniel.

Announcing to the king that it was the god of Heaven which had revealed the dream to him he declared that the great king had seen a great image

which was bright and terrible. With

head of fine gold, breast and arms of silver, with belly and thighs of brass,

with legs of iron, and feet of iron and clay.

He said that there had come a tone that was cut without hands

which smote the image on the feet and broke them, and had broken the iron, the clay, the brass, the silver and the gold to pieces even as the chaff of a threshing floor, that the wind had carried away the dust, while the stone became a vast mountain.

Daniel told him that kingdom after

kingdom should rise and fall until

God should set up one that should never be destroyed. Awe by the mys-

terious interpretation, at the short-

ived greatness of his own royal role,

awed by the glimpse of that vast spiritual kingdom that God would establish, he fell on his face, acknowledging

the God of Daniel as the true God.

Then he set Daniel and his friends in

places of highest power in his king-

dom.

6. "The Stone." "The stone is

Christ," Isa. 28:16; Mat. 21:42-44. The

end is not by gradual and peaceful ex-

ension through gospel preaching. The

stone does not fill the earth by secu-

rizing its submission to God, but by a

crushing blow. It is after the stone

has done its mighty work that it be-

comes a great mountain." — P. B.

3. "A Lost Dream." The lost dream

hunted him. He could find no rest. He

arose. He partook of his food. He

called for the men about him who

practiced occult. They professed to be

profession interpreters of dreams.

4. "A Tyrant's Demand." These

men succeeded thus far in holding

the confidence of the king. He believed

in their mysterious power. The

haunts of the dreadful dream so

welte upon him that he felt his

mind failing him. He therefore in

hope of getting this great load off his

mind demanded that they interpret his

dream. But they ask: "What dream?"

He told them that he had a dream but

could not remember it and that they

should recall the dream and interpret

it or lose their head. This was the de-

sire of the insane king. The occult

leaders were horrified at their critical

position. They declared such a de-

their district, according to County Agent J. E. McClure. Prizes will be offered for the lawns which show the greatest and most economical improvement by next June.

who pointed out in his talk on grading that Kentucky farmers last year lost more than \$50,000 on cream that went to market in poor condition.

Cream grading methods are being presented to Clloway county farmers in order to help them reduce the losses which they suffer each year from poor quality cream, County Agent J. B. Gardner says. Interested persons in the vicinity of the Murray cream station recently were addressed by J. O. Barkman, dairy specialist from the College of Agriculture at Lexington.

## DISABLED SERVICE MEN ARE BEING CLEANED UP

Desperate Effort Being Made By Veterans' Bureau To Clean Up Claims Against Nation.

The sixth conference was held June 23d at Princeton with representatives from Caldwell, Fulton, Hickman, Carlisle, Ballard, McCracken, Graves, Livingston, Marshall, Calloway, Crittenden, Lyon, Trigg, Union, Webster, Hopkins, Christian, Henderson, Muhlenberg, Ohio and Grayson counties.

The seventh and last conference was held June 24th at Danville with representatives from Lincoln, Adair, Russell, Green, Taylor, Marion, Garrard, Madison, Rockcastle, Pulaski, McCreary, Wayne, Clinton, Whitley, Laurel, Jackson, Clay, Knox, Bell, Harlan and Casey counties.

Representatives of the U. S. Veterans' Bureau, the Government machinery, created to care for the World War disabled, send officials to each of the conferences to explain the necessary forms and procedure and evidence required, so that the several representatives would be in position to properly assist their disabled comrades in preparing claims.

The entire press of Kentucky is co-operating in this drive and it is evident that Kentucky will once more go "over the top" in a World War drive.

Jackson Morris is Chairman of Kentucky Disabled Ex-Service Men's Board which was created by the 1922 Kentucky Legislature to assist Kentuckians disabled in the World War to secure the compensation provided for them by the Federal Government. Emmet O'Neal, Commander of the American Legion, Mrs. Margaret L. Duncan, President of the American Legion Auxiliary and Henry J. Stites are the other members of the Board.

In almost every neighborhood there are living witnesses of its wonderful effects. Therefore, if you doubt its value or power to help you, ask your neighbor. In nine times out of ten she has been benefited by its use or knows someone who has. It will pay you to give this root and herb medicine a trial.
